PERFECT FOR:

If you consider yourself an organizational ninja and believe your closet should spark joy and efficiency, this is your match.

The Contemporary Closet

is the Zen master of storage. Zero clutter, infinite possibilities, and enough tech to make your gym bag feel fancy. The Contemporary Closet is all about high-performance design with a touch of tech-savvy sophistication.

PRO TIP:

LED lighting doesn't just make shelves & cabinets functional; it also gives you that Beyoncé-on-tour-level of glamour.

Floor-to-ceiling storage that maximizes every square inch

Sleek finishes in neutral or monochromatic tones

Hidden smart features like integrated lighting and automation

WARM | RUSTIC | INVITING

Modern Farmhouse

PERFECT FOR:

If your playlists switch between indie folk and 90's country, and you think "texture" isn't just a design element, but a personality trait, this one's for you.

The Modern Farmhouse Closet

is both charming and tidy. Think Joanna Gaines meets your local coffee shop vibes. With sliding barn doors and soft wood finishes, it's like wrapping your wardrobe in a cozy blanket of rustic chic.

PRO TIP:

Want true farmhouse drama? Add a vintage chandelier. Yes, even above your shoe cubbies...

Rustic accents with glass front doors & open shelves

Decorative mini drawers and open, airy shelving

Light wood tones paired with black or brass hardware

MINIMALIST | SMART | SOPHISTICATED

The Modern Closet

Is all about no-fuss efficiency. It's all about clean lines, smart storage, and a chic, minimalist vibe. It's a version of your effortlessly cool friend who actually shows up on time for brunch.

- Minimalist designs with clever storage hacks
- Sleek finishes in neutral or monochromatic tones
- Floating shelves, glass accents, and built-in lighting

PERFECT FOR:

If you love clutter-free, modern spaces but still own 37 identical black turtlenecks, this one's for you.

PRO TIP:

Mix sharp edges and off-white finishes for a polished, high-end look. Bonus points if someone compares your closet to an art gallery.

HANDCRAFTED | TIMELESS | UNIQUE

Arts & Crafts

PERFECT FOR:

If your home is a vision board of "artisan efficiency", you're about to fall in love.

The Arts & Crafts Closet

is perfect for anyone obsessed with artisanal design and rich, natural finishes. Its lesser-known tagline could be "Where craftsmanship meets cozy perfection."

PRO TIP:

Add decorative doors or specialty drawers for that "crafted with love" effect.

Clothes, tools, and everything in between

Organized closets and
usable garages make home
your happy place

BALANCED | ELEGANT | VERSATILE

PERFECT FOR: If you can't decide between bold and classic, and your decorating mantra is "Why not both?", this is your style soulmate.

The Transitional Closet

is a place where classic doors are paired with a laid-back, neutral color palette that whispers sophistication without trying too hard. These designs say, "I could win an HGTV competition, but I'm humble about it."

PRO TIP:

Opt for soft-close drawers—that satisfying "whoosh" feels just as fancy as it looks.

Flexible storage solutions for clothes, shoes, and accessories
